

contour interval \_\_\_\_\_

|                          |  |
|--------------------------|--|
| Map Scale                | Shows distance on map. Look to see if in miles or km. ft/mi m/km                 |
| Contour interval         | on this map is 20 m  |
| Direction of stream flow | *The bends in the contour lines*<br>The stream flows North or N.W.               |
| Steepest section         | where lines are closest together = steep slope<br>EAST SIDE                      |
| Bench mark               | Highest point = $\Delta 119$ m   |
| Depressions              | To the West deepest is 21 m  |
| Islands                  | Rings inside of Rings START AT ZERO<br>Mts = Rings inside Rings lead to Mt Peak. |
| Highest elevation        | on this map 119 on any map might show up<br>A X OR $\Delta$ OR BM                |
