

Intergrow Crystals

Fact(s) to memorize: 12 - 14

Igneous Rocks

Formed from fire
MAGMA & LAVA

Earth Science Reference Tables, page 6

MAGMA	Intrusive	Inside	Environment of Formation	outside	Extrusive	LAVA
	Plutonic		Also known as		Volcanic	
	Slow / Very slow		Rate of cooling		FAST / Very FAST	
	LARGE		Size of crystals		small TO NON-crystals	
	course / Very course		Texture		Crystalline / Fine	
					vesicular / glassy	

USE ESRT PAGE 6

The two extrusive glassy textured rocks that are non-vesicular, are

★ Cooling Slow = Crystal
